

## BELOTERO BALANCE® Dermal Filler

As we age, the skin loses its youthful appearance as the production of natural support structures diminish. Over time, those structures such as hyaluronic acid, commonly called HA, begin to disappear, resulting in wrinkles. BELOTERO BALANCE® Dermal Filler is an injectable filler that quickly integrates into your skin filling in facial wrinkles.<sup>1</sup> With BELOTERO BALANCE Dermal Filler, you can replace lost HA caused by the natural aging process. Once injected, it instantly fills in the skin and smoothes out wrinkles on your face. Use BELOTERO BALANCE Dermal Filler to get the results you want for the look you deserve.

### BELOTERO BALANCE® Dermal Filler and Other Fillers

While BELOTERO BALANCE Dermal Filler is made of the same material (HA) as some other dermal fillers, BELOTERO BALANCE Dermal filler has unique properties that allow it to adapt within the skin for soft and even correction. The versatility of the product makes it strong enough to handle deep treatment areas such as nasolabial folds (smile lines around the mouth) as well as more delicate areas such as vertical lip lines (thin lines that appear above the lip line).

If you're ready to experience the benefits of BELOTERO BALANCE Dermal Filler for yourself, contact Bee Caves Dermatology.

### Treatment

BELOTERO BALANCE Dermal Filler is injected into the skin using a very fine needle, filling in your wrinkles right before your very eyes. BELOTERO BALANCE Dermal Filler works immediately to fill in your wrinkles and folds so you'll leave your healthcare provider's office knowing BELOTERO BALANCE Dermal Filler is working for you. Not only are results with BELOTERO BALANCE Dermal Filler instant, they are proven to last. In a clinical study, many patients saw results that lasted about six months or more<sup>1</sup>.

BELOTERO BALANCE Dermal Filler may be used in the following treatment areas:

- Smile lines\*, also called nasolabial folds, which run from the sides of the nose to the corners of the mouth
- Vertical lip lines\*, which form above the upper lip
- Corners of the mouth\*, which can turn downward and give the look of a constant frown

- Marionette lines\*, which begin at the corners of the mouth and extend down toward the chin

### Why Choose BELOTERO BALANCE® Dermal Filler?

BELOTERO BALANCE Dermal Filler makes an excellent wrinkle treatment for smile lines and folds because it:

- Provides soft correction for results that are even, smooth and immediate
- Reduces the appearance of wrinkles and folds
- Is clinically proven to last up to 6 months or longer
- Integrates into your skin to provide a natural correction

### What to Expect

Treatment with BELOTERO BALANCE Dermal Filler is a safe, simple procedure performed in our office at Bee Caves Dermatology in Austin. These quick treatments, which consist of injections with a fine needle, are often complete in just 30 minutes. After injection into the skin, BELOTERO BALANCE Dermal Filler instantly plumps the skin and smoothes facial wrinkles.

With little or no downtime needed, you'll likely leave our office and go right back to your regular routine - looking naturally more youthful and refreshed. For soft results that last, BELOTERO BALANCE Dermal Filler is the natural choice.
